Tuesday's Lexington Herald says:

"It was announced last night that

W. B. Hawkins, President of the

Burley Tobacco Growers' Associa-

tion, who is now in New York con-

fering with the syndicate of cap-

italists who are to finance the As-

sociation, had telephoned that he

had been successful in his mission

among them, and that the Associa-

tion would begin Wednesday mov-

ing to carry out its contracts with

its members.

"The purpose of Mr. Hawkins' visit

to New York was to bring

about the elimination of a certain

clause in the contract between the

Association and the capitalists, to

which objection had been made by

Chicagoan parties who had agreed

to take the remaining unsold por-

tion of the capital stock. The

particular clause caused them to

feel unsafe. Hawkins promised to

get it changed if he could.

"Mr. Hawkins is expected home

tonight and it is said that he will

call a meeting of the directors of

the Association at once."

HELD A CONFERENCE

Emperor Nicholas and Members of the Council Met.

They Considered the International and External Situation in Russia—No Indication That Continuation of War Will Be Abandoned.

St. Petersburg, Jan. 9.—The conference which Emperor Nicholas has been holding with members of the council of the empire, M. Witte and other ministers and advisors on the international and external situation, have not yet been concluded, but nothing has occurred which would indicate that the government is prepared to depart from its present program of continuing the war to the bitter end. Nevertheless, talk of peace was heard in many quarters, the foundation for it being ascribed to Foreign Minister Lamoriniere's alleged position in favor of such a course on the ground that aside from the humiliation to military prestige involved, it would only mean the relinquishment of Manchuria to which Russia already is formally pledged. There is no confirmation of this statement of Count Lamoriniere's position beyond the general knowledge that he always has belonged to the peace party.

It is quite probable that the peace talk passed has been produced by the arrival of foreign papers, as it receives no encouragement in responsible quarters here.

THE CHADWICK TRIAL.

There Will Be No Delay So Far as the Defense is Concerned.

Cleveland, Jan. 9.—Commenting upon the fact that no had been served upon the defense by the federal authorities, Attorney J. F. Daver, counsel for Mrs. Cassie L. Chadwick, said:

"I have not received so much as a power subpoena from either Mrs. Chadwick or her husband, Dr. Chadwick. The serving of such an order makes me as being humorous. Mrs. Chadwick has certainly not turned any diamonds over to me."

Mr. Daver stated further that there would be no delay in the trial of the Chadwick case, so far as the defense was concerned.

COLORADO GOVERNORSHIP.

Legislature Crossed the Vote and Declared Adams Elected.

Denver, Col., Jan. 9.—Alva Adams was declared by the legislature to be the duly elected governor of Colorado. The returns showed Adams 128,075, Peabody 117,044; plurality for Adams 11,031.

The republican candidates to all the state offices were declared elected under the terms of the agreement made by the various factions of the party, so notice of contest called by Gov. Peabody until after inauguration of Mr. Adams, which for 10 o'clock Tuesday morning, is not yet been definitely decided.

Invited to Be Executed.

Dr. Abdel Himmeh, a Turkish resident in Paris, has been requested by the Turkish embassy to return within 30 days to Constantinople, where an order for his execution awaits him. The doctor recently published a violently worded pamphlet charging the sultan with responsibility for the massacre of non-Muslims in the Turkish empire. He has appealed to the French government for protection.

How the Japanese Live.

Baron Kaneko says: "Well-to-do Japanese do not live so very differently from Americans. For breakfast they have their coffee—from your latest possession, the Philippines; condensed milk from Chicago, bread from flour milled in Minneapolis. They smoke a cigarette of Virginia leaf, and they read a morning paper printed on paper made in Wisconsin."

For breakfast they have their coffee—from your latest possession, the Philippines; condensed milk from Chicago, bread from flour milled in Minneapolis. They smoke a cigarette of Virginia leaf, and they read a morning paper printed on paper made in Wisconsin."

Smallest Inherited Legacy.

Next to the proverbial shilling, perhaps the smallest legacy has been inherited by a native of New Zealand. He had a son, who died in the Dutch Indies and left him his effects, amounting to 25 pence. The money was sent to him at Middleburg, and he is, being also a farmer.

Proof Positive.

Shawton—They say if you pick up a helpline from the sidewalk it is a sign that you will receive a present.

Wednesday—That so. I picked one up the other day and put it in my pocket and when my wife discovered it later she presented me with a piece of her mind.—Chicago Daily News.

Squash Pie.

For two deep pies, having prepared pastry, use two generous cups smoothly mashed (cooked) squash, two cups brown sugar, well-beaten eggs, 1½ pint of one-half teaspoonful each butter, salt and nutmeg.

Woman's Magazine.

To Enjoy Life.

To enjoy life in a restaurant, thing else than to be married to a man who is as good as dead to him, even if she is a Somerville Journal.

As Others See Us.

Mifflin—Old Mifflin will not gain his business career by running with a circus.

Hillie—Well, I don't doubt it, almost impossible to nail a circus to a chair.—Chicago Daily News.

It Was Unnecessary.

Professor—Give an example of the word "unseen."

Lady Hotel Guest Not Lightenest from a Jail.

A woman lives at one of the Kansas City hotels who has the reputation of being rather flashy and hard to please in the matter of food. A day or two ago at lunch, when the Kansas City Journal, after looking over the dinner list, she decided on some ice cream pudding. The meal had been one with which she had considerable difficulty in finding fault, but when she had about half finished the dessert she called the waiter over and said:

"George, what do you mean by calling this ice cream pudding? There isn't any cream about it, and you know it."

"Yes," said the waiter, "I know and I call it ice cream pudding. That's the name they give it. I don't know why."

"Well," she continued, "if that isn't if they give a dish such a name they ought to make it conform to the name, and if you call this ice cream pudding, you ought to bring some ice cream with it."

"Yes," answered the waiter, "but you know we can't do it that way. You know we don't, bring a cottage in with cottage pudding."

The waiter's reply brought a burst of laughter from the guests who heard the conversation, and more than the woman's criticism of the menu have been law and satire.
